

Dick CEPEK

DICK CEPEK RADIAL F-C II

Off-Road Radial

- Advanced radial construction for high mileage and smooth ride.
- High load ratings on SLT sizes for great towing capabilities.
- Self cleaning tread with "stone kickers" for off road traction.
- Extra wide footprint for better traction and even wear.
- Sidebiters for added traction and sidewall protection.
- Siped tread lugs for better grip on smooth surfaces and ice.

The Dick Cepek Crusher Radial is Perfect for Truck Owners seeking Ultra Aggressive Off Road Traction and Excellent Handling on the Street. The Dick Cepek Crusher Radial Features a Unique Tread Pattern, Tough PowerPly 3-Ply Sidewalls, Functional Skull and Cross Bone Sidebiters, and Great Selection of sizes to Customize any Truck, 4X4, or SUV.

DICK CEPEK TORQUE

Off-Road Bias

The DC Torque with its incredible flat black finish, machined accents, and tough satin clear coat really stands out from the crowd. Designed for newer trucks and SUV's that require higher offsets, additional brake caliper clearance, and the ability to use the factory Tire Pressure Monitoring sensors (TPMS). This wheel is the perfect choice for the truck owner that wants to combine style with usability on or off-road.
